

CAMAC HARPS

Dear customer, dear harp maker,

We are pleased to send you our updated price list for 2014.

Following customer requests, we are introducing our new finishes: gold plated, and dark nickel plated.

The extra cost for these finishes is 2 euros (ex-VAT) per lever, to be added to the price of the lever.

To place an order, we require the string chart which must include each of the following details: vibrating length, diameter, and material. This information is requested for every string of the set, as our levers will be prepared to fit the characteristics of your harp.

Our levers come together with their screws and bridge pins.

Additional accessories are available on request, such as tuning pins and tuning keys.

Shipping costs are additional. Please specify if you wish to receive your order by registered post service, or by FedEx/Chronopost. We can quote both shipping costs on request.

We also ask for prepayment before shipment. This can be arranged either by credit card (VISA, Eurocard, Mastercard), or by bank transfer to our account (see bank details at the bottom of this document).

Please feel free to contact us for any further information.

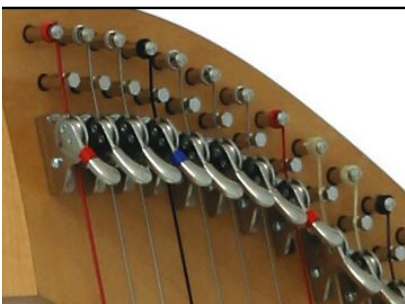

Sincerely yours,

Jakez FRANCOIS
President

Full sets for one type of harp / according to one string chart

Quantity	Price per lever in euro - January 1st, 2014
